Summary

Full-stack developer specializing in MERN stack, Next.js frontend development, and SQL, with strong experience building scalable web applications and real-time communication platforms. Highly skilled in React.js, Node.js, TypeScript, and database design. Proven ability to deliver technology solutions that improve efficiency, enhance user engagement, and support business growth.

Education

Deogiri Institute of Engineering and Management Studies   *2022 – 2026*
Bachelor of Technology in Computer Science and Engineering
- **GPA:** 8.4/10.0
- **Coursework:** Data Structures and Algorithms, Database Management Systems, Software Engineering Principles, Computer Networks.

Class 12th (HSC)   *2021 2022*
Deogiri College, Chhatrapati Sambhaji Nagar, MH
- **Percentage:** 86.40%

Class 10th (SSC)   *2019 2020*
Dnyanesh Vidya Mandir, Chhatrapati Sambhaji Nagar, MH
- **Percentage:** 91.20%

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Java, SQL, Python (Basics)
Frontend: React.js, Next.js, Tailwind CSS, Bootstrap 5, HTML5, CSS3
Backend: Node.js, Express.js, RESTful APIs, Authentication
Databases: MongoDB, MySQL, PostgreSQL
Tools & DevOps: Git, GitHub, Docker, Postman,Figma,Adobe
Deployment: Vercel, Render, Netlify, Heroku
Methodologies: Agile/Scrum, CI/CD

Projects

Freelancer & Gig Workers Management System — SewaSetu (MERN Stack)
Co-led a 3-person Agile team to build a full-stack platform connecting local service professionals and customers.
- Facilitated over **150+ job postings** during pilot testing, demonstrating usability and market fit.
- Reduced customer wait times by **35%** through instant communication and location-based job matching powered by Node.js APIs.
- Integrated a rating/feedback system, boosting engagement and trust by **60%**.
- **GitHub Repository:** https://github.com/SagarSuryakantWaghmare/Resource-Connect

FreeFlow — Peer-to-Peer Communication Platform (Next.js, Spring Boot, WebRTC)
Designed and developed a secure, serverless messaging platform using peer-to-peer communication technology.
- Implemented direct browser-to-browser messaging using WebRTC, eliminating dependency on central servers for message transmission.
- Built a Spring Boot signaling server to facilitate connection negotiation between peers.
- Created a responsive Next.js frontend for an intuitive and modern user experience.
- **GitHub Repository:** github.com/SagarSuryakantWaghmare/FreeFlow

Certifications

Meta Front-End Developer Specialization (8 Courses Included)   *2025*
- *Meta via Coursera*
  - Completed nine-certificate program covering: Introduction to Front-End Development, Programming with JavaScript, Version Control, HTML and CSS in Depth, React Basics, Advanced React, Principles of UX/UI Design, Front-End Developer Capstone, and Coding Interview Preparation.
  - Gained hands-on experience building real-world front-end applications, applying professional developer best practices, and mastering modern React, JavaScript, and UI/UX fundamentals.

The Complete Full-Stack Web Development Bootcamp (Certificate)   *2024*
- *Udemy*
  - Completed an intensive web development certification, building 16 full-stack projects using the latest technologies including JavaScript, React, Node.js, and Web3.
  - Gained hands-on skills in creating professional websites and web applications, mastering both frontend and backend development, and applying best industry practices.

Extracurricular Activities

Social Media Head, Anime Club
  - Led and organized multiple Anime Club events, including screenings and discussions for the college community, fostering engagement and building a cohesive group through effective communication, event planning, and community outreach to expand membership and participation.
  - Managed the club's social media presence by creating engaging posts, event announcements, and visual content, increasing online engagement and attracting new members.

Won 3rd Rank in CODE'A'THON:
  - Achieved 3rd Rank in a competitive CODE'A'THON focused on solving Data Structures and Algorithms (DSA) challenges and real-world programming problems, demonstrating strong analytical, problem-solving, and algorithmic expertise under pressure.
